

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. My family used to receive several phone calls daily and it was quite a nuisance, now we rarely receive telemarketing calls. I have had to, in the past, listen to rude comments from telemarketers when I told them that I was not interested, my children have had telemarketers ask them questions regarding our household and I used to be cautious whenever I answered the phone. The calls would come all hours of the day. As a result of the Telephone Privacy law this is no longer a problem in our household. PLEASE DO NOT CHANGE THE INDIANA TELEPHONE PRIVACY LAW!!!!
